

THE FAYETTE FALCON

ESTABLISHED 1866.

SOMERVILLE, TENNESSEE, FRIDAY, JULY 15, 1921.

NEW SERIES: VOL. XV.—NO. 3

Moscow

The revival at the local Methodist Church which continued for ten days came to a close Wednesday night. Rev. A. W. Lassiter of Oakland who did the preaching leaving for his home Thursday morning. Rev. Lassiter maintained a high standard of preaching to the end and his words have contributed materially to the spiritual uplift of this people. Congregations continued large to the close of the meeting and the members and friends of the church are greatly gratified over the results brought about thru the sermons and appeals of this able and lovable man of God. We trust the efforts of Rev. Lassiter in this meeting and the treatment accorded him by our people has made with him a feeling of satisfaction and that his great big heart may continue warm with love for us, as ours will for him. Oakland is indeed fortunate in having such a splendid man as pastor of one of its churches, and good citizen.

County Supt. J. B. Summers and Esq. Wilkerson passed through Moscow Thursday.

Among local visitors recently at the home of Mr. and Mrs. C. A. Roah were Mrs. O. P. Bobbitt and Mrs. J. A. Smith of Memphis.

H. M. Boswell spent Wednesday in Memphis.

W. R. Bryant is erecting a large barn on his place east of Moscow.

S. E. Evans and family have moved to the Wilson house recently vacated by J. A. Bobbitt.

W. W. Tally has assumed charge of the Hotel and will continue same.

Mrs. Flora Swain of Boone Iowa, is the guest of her sister, Mrs. W. H. Morton.

Many a home is judged by the back yard it keeps.

Miss Gladys Bobbitt of Memphis is visiting her aunt, Miss Fannie Fleming.

Luther Holeman of Williston was a caller Tuesday.

Every province of the Bible is pouring its treasures at our feet. The sublimest thoughts of Moses and David Isaiah and Paul daily contribute to our sustenance in the hurry and bustle of the home or market place we receive a constant inspiration from words which were uttered in thunder amid the mountain peaks of Sinai, and day by day our lives are cheered and comforted, guided and blessed, by truths that were proclaimed in the wilderness of Beersheba or amid the gardens and slopes of Galilee. What a book—vast and wide as the world, rooted in the abysses of the creation and towering up behind the blue secrets of heaven, sunrise and sunset, promise and fulfillment, birth and death, the whole drama of humanity are all in this book. It is indeed comforting to know God loves us all even when we are bad. There would be no hope for us if He did not.

Be brave—don't be afraid to stand
Up boldly for the right,
And evil firmly to oppose
With all your fearless might;
For real courage only fears
What it is wrong to do
To live a hero's life, my lad,
Be honest, brave, and true.

Rehoboth Church Notices

On Sunday July 17, God willing, we shall have the celebration of the Lord's Supper. Let us examine ourselves and humbly acknowledge our sinfulness to God, and come pleading only the merits of Jesus Christ our Saviour.

Tuesday, July 26, Mark it before you in big letters and remember it. It is clean-up day at Rehoboth, church, grounds, and cemetery to be cleaned up. All members of the church are invited to participate in beautifying our house of worship. All who have loved ones buried in the cemetery are urged to come and here show their respect. Bring your baskets and we will have a big dinner. Ladies bring brooms, wash and dust clothes; men bring grubbing-hoes, axes and such things for the removal of brush and rubbish. This is a good way to show our appreciation four our church. At the close of the day we will have a prayer service for the meeting we are planning.

Revival Services to begin at Rehoboth on Sunday, July 31. We are glad to promise special music and want all to come and make this a real blessing to our community. Pray for the service, and invite the unevangelized. "C"

Obituary

D. W. Campbell, was born in Hamilton county, Tennessee, December 12, 1860, and departed this life June 30, 1921, in the hospital at Bolivar, Tennessee.

Deceased came to Fayette county in 1882 and was married to Mrs. Elizabeth Himmaugh in 1883. One child was born to this union, D. R. Campbell, who with his aged mother survives him.

He professed religion and united with the M. E. Church South and has lived a consistent member ever since.

A devoted husband, a kind father, and a loyal citizen has passed into the Great Beyond to await the coming of loved ones.

Funeral services were conducted at the residence of his son, seven miles north of Somerville by Rev. G. B. Baskerville.

He was buried at Hebron Cemetery. G. B. BASKERVILL, —

NOT DUE TO SEX ALONE

Somerville Women Have Learned the Cause of Many Mysterious Pains and Aches

Many women have come to know that sex is not the reason for all back-aches, dizzy headaches and urinary disorders. Men have these troubles, too, and often they come from kidney weakness. To live simply, eat sparingly, take better care of one's self and to use Doan's Kidney Pills, is bound to help bad kidneys get better. There is no other remedy so well-recommended by Somerville people. Ask your neighbor, Read this:

Mrs. W. K. Linyard, Somerville, says: "I had awful pains through my back, and it sometimes put me past going. I also had rheumatism pains in my hips, especially in changeable weather. I had to be helped out of bed when these attacks came on and my kidneys were weak and disordered. I knew something would have to be done. I was so nervous and get worse every day. I read of Doan's Kidney Pills in the paper and decided to get a box at the Rhea Drug Co. Doan's helped me from start and with continued use, I was completely cured." Price 60c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Linyard had. Foster Milburn Co., Mfgs. Adv.

Scene From Rollicking Comedy, "Nothing But The Truth," Second Night of Chautauqua

"Nothing But The Truth" is one of the most widely known comedy successes.

As a novel by Frederick S. Isham, it was read by millions of people, and later as a play it ran more than a season on Broadway.

It is the ingenious, entertaining story of a young society idler who wagers that he can tell the absolute truth for one whole day.

A complete production of "Nothing But The Truth" will be given on the second night of the Redpath Chautauqua here, by a New York cast.

Somerville, July 19-20-21

Get Rid of Rats

Rats cause great losses to poultry raisers and a constant warfare should be waged against them. Winter is the better time to kill rats, but more interest is taken in the subject just when they are eating your young chickens. A method that is bringing good results is as follows: Use barium carbonate, a tasteless and odorless drug that can be bought at any drug store, prepare a bait of a kind different from the food the rat can get easiest about the place. At the barn where grain is plentiful, use a meat or vegetable bait. Poison may be mixed with small portions of all three classes of food,—giving them their choice.

Summer Complaint in Children

There is not anything like so many deaths from this disease now as before Chamberlain's Colic and Diarrhoea Remedy came into such general use. When this remedy is given with castor oil as directed and proper care is taken as to diet, it is safe to say that fully ninety nine out of every hundred cases recover. Mr. W. G. Campbell of Butler, Tenn., says, "I used Chamberlain's Colic and Diarrhoea Remedy for summer complaint in children. It is far ahead of anything I have ever used for this purpose." adv.

Garden Notes

Planting time for late potatoes is just right now and will continue for a month. Much planting has already been done, but they can just as well be planted now as earlier but planting should be gotten over as soon as possible now. Unless seed of the spring raised Triumphs have been planted already or are planted at once it would hardly be worth while to plant them, but cold storage Triumphs or Lookout Mountains can be planted for a month yet. Eating potatoes are selling in Somerville now at 75c per peck, \$3.00 per bushel and have to be shipped in to supply the trade as few local grown potatoes are being offered.

We continue to plant corn and running beans thru this month and have roasting ears till frost, and often cut and shock in the garden and have them ten days after frost.

If you want late tomatoes and have not the plants pull suckers off the old plants and set them deep and water well. They will grow just as well as young plants and will produce as well.

If one expects a fall garden work must be going now. Cabbage seed sowed now and set out last of August will produce good heads in October. Get one of the early varieties as it grows faster and gives a better head. Too late now to sow the slow growing sorts.

Cucumbers planted now will produce the best pickling fruits late in fall if seasons are favorable.

The soil is mighty dry now, but seed may be gotten to germinate well enough if you plant late in the afternoon as follows. Prepare ground well, open drill for the seed and sprinkle it until well moistened, then sow the seed, cover and pack soil on the drill lightly with hoe or rake and keep covered with a plank a few days. We have no trouble getting any seed to germinate by this method in dry weather.

Our plot is ready and the first rain we will sow a few rows of turnips about 18 inches apart so they can be worked. Then we will sow the main turnip patch for both turnips and greens later.

Taxes

BY T. F. PECK—
Commissioner of Agriculture

One subject that is of vital importance to every citizen of the State, and one about which much discussion is centered, is that of taxation. We hear the question discussed every day—taxes—State and county, municipal, income, special school and automobile. There is no question about these taxes being burdensome, but they must be paid.

And yet we are paying other taxes that are even a greater drain on our resources, and taxes that we do not give sufficient thought, for we could avoid their payment without violating any law, and with direct benefit to ourselves. Let us enumerate a few of the taxes the farmer is paying that he could easily avoid.

You can go to the majority of the farms and find farm machinery depreciating because of neglect. Machinery is left out in the weather, proper adjustment is neglected, oil is not used when needed. This depreciation amounts to more than the cost of the machinery plus natural wear and tear with proper attention. This is a useless tax.

Some farmers will tell you that they work longer hours and harder than any body. I persuaded one who told me that to keep an accurate record of every day he worked that he would be willing to pay for if he were hiring it done. I believe he was honest, for he reported eighty days and now he admits that wasted time was the biggest tax that he had been paying.

Let the man in the city, whose time is his capital, and who has to buy all his food, clothing, fuel and pay his rent, work only eighty days in the year at the rate of pay he gets, he will comediably in debt. No other vocation will provide as many comforts at the same expenditure of labor as does farming.

I have seen much waste in feeding of farm animals the lack of knowledge how to feed a balanced ration. With some farmers feed is feed, and just as their animals get fed it is immaterial whether it will make heat, fat, or build up muscle. By intelligent feeding one half of the tonnage would have given better results if properly proportioned. The other half was unnecessary tax paid due either to ignorance or indifference.

I have seen farmers, when they were ready to plant corn, go to their critters and shell their corn without any effort at selection, when every one who keeps in touch with the work that has been done in seed corn selection knows that by proper selection of seed, the yield can be doubled. Is not that a rather heavy tax to pay for neglect?

I have seen men pretend to farm, without any definite plan about their work. I have seen their ground in splendid shape for working; but they would do something else that they could have done when the ground was either too wet or too dry to plow. Then when they wanted to plow, the ground was either too wet or too dry to plow, and there was a chance that it would have to lie idle a whole season because of this neglect—a heavy tax to pay for lack of intelligent management. It is always better to push your work than to have your work push you.

Farmers pay heavy penalties in loss of crops by not taking care of them at the proper time. I have known the crops to depreciate one-half by letting stand too long before cutting. I have known wheat and oats to almost ruin in the field by letting them stand in the shock after ready for the barn or stack. Taxes imposed on the farmer by law are heavy, but there are numerous ways in which he pays heavier taxes through neglect. Of course, in spite of all precaution, farmers suffer losses, but many losses they incur are preventable. Losses can be minimized by systematizing farm operations and keeping up with the work—being ready to do the right work at the right time.

SURGEONS agree that in cases of Cuts, Burns, Bruises and Wounds, the FIRST TREATMENT is most important. When an EFFICIENT antiseptic is applied promptly, there is no danger of infection and the wound begins to heal at once. For use on man or beast, BOROZONE is the IDEAL ANTISEPTIC and HEALING AGENT. Buy it now and be ready for an emergency. Sold by Cartmell-Gillman Drug Co.

When the baby is suffering the double affliction of hot weather and bowel disorders, the remedy needed is GEE'S BABY ELIXIR. It reduces the feverish condition, corrects the stomach and checks looseness of the bowels. Sold by Cartmell-Gillman Drug Co. adv.
